

AHSAN JAVED

Online Tutor & Lecturer | Artificial Intelligence, Mathematics, Statistics, Computer Science, SAT | IB, IGCSE, GCSE
Islamabad, Pakistan | +92 331 5534673 | ahsanjaved5000@gmail.com | [linkedin.com/in/ahsanjaved5](https://www.linkedin.com/in/ahsanjaved5) | www.ahsanjaved.dev

PROFESSIONAL SUMMARY

Experienced online educator and software engineer with 10 years of teaching and mentoring experience, working with students from the UK, USA, Canada, Gulf countries, Europe, and Pakistan. Specializes in Mathematics, Computer Science, Programming, Statistics, Artificial Intelligence, and Data Science. Experienced in teaching IGCSE, GCSE, IB, college, and university-level students. Combines strong academic foundations with real-world software engineering experience, enabling practical, career-focused learning.

TUTORING EXPERTISE

- Mathematics: IGCSE • GCSE • IB • Calculus I & II • Algebra • Functions • Trigonometry • Mathematical Methods
- Computer Science: IGCSE • GCSE • IB • Programming Fundamentals • OOP • Data Structures • Algorithms
- Programming: Python • C++ • Dart • Flutter • Software Engineering • APIs • Databases • Practical Projects
- Statistics & Data Science: Statistics • Probability • Data Analysis • Pandas • NumPy • Scikit-learn
- Artificial Intelligence: Machine Learning • Deep Learning • LLMs • RAG • AI Applications • Python-based AI
- University & Professional Learning: Undergraduate courses • Exam preparation • Assignments • Research & projects

TEACHING EXPERIENCE

Private Online Tutor & Academic Mentor | 2015 – Present

International Students — UK, USA, Canada, Gulf, Europe & Pakistan

- 10 years of experience teaching and mentoring students across school, college, university, and professional learning levels.
- Currently teaches international students in Mathematics, Computer Science, Programming, Statistics, AI, and Data Science.
- Provides one-to-one tutoring, exam preparation, concept building, assignment support, and project-based learning.
- Adapts teaching to international curricula including IGCSE, GCSE, IB, and university-level courses.

Visiting Faculty – Probability and Statistics, AI with Python | 2024 – Present

Quaid-i-Azam University

- Teaching Probability and Statistics and AI with Python to BS students with practical hands-on labs.

Visiting Faculty – Introduction to Programming & Calculus I | 2020 – 2021

Virtual University of Pakistan

- Taught programming fundamentals and Calculus I to BS/MCS students through structured, concept-focused instruction.

Subject Instructor – Computer Science & Mathematics | 2019 – 2021

Ziyyara EduTech Pvt Ltd - KSA

- Taught Computer Science and Mathematics to BSc/FSc students, building conceptual foundations and supporting exam preparation.

PROFESSIONAL SOFTWARE ENGINEERING EXPERIENCE

Mobile App Developer (Part-Time Remote)

Sep 2023 – Present

American Taxi Dispatch Inc., Chicago, IL, USA

Senior Flutter Developer / Software Engineer | 2021 – Present

Professional Software Industry Experience

- 5+ years of professional experience developing production mobile applications and software systems.

- Built and contributed to applications in transportation, fintech, food-tech, and AI, including products serving tens of thousands of users.
- Industry experience supports practical teaching of professional programming, software engineering, app development, AI, and data science.

SPECIAL PRACTICAL PROJECTS

Personal Portfolio Website

Flutter Web • Responsive UI • Service Showcase • Integrated Booking System

Modern Flutter Web portfolio featuring a fully responsive UI, dynamic project showcase, service offerings, and an integrated client booking system — built end-to-end in Flutter and deployed.

Website: www.ahsanjaved.dev

American Taxi Dispatch — Cab Booking App

Flutter • Google Maps API • Stripe/Square • Firebase OTP • Push Notifications • MVVM

Full-featured ride-hailing app with real-time GPS tracking, multi-gateway payments, Firebase OTP authentication, and push notifications. 10,000+ active users. Published on Play Store & App Store.

Play Store: play.google.com/store/apps/details?id=com.ataxi.orders.ui

Rental AI — AI-Powered Rental Agreement Analyzer

Flutter • Python • Mistral LLM • ChromaDB • RAG • PDF Processing • Runpod

AI-powered mobile app using Flutter and Python that analyzes rental agreements via RAG and Mistral LLM, deployed using a rented GPU pod on RunPod. Features rental clause analysis to help users identify problematic contract terms.

EDUCATION & CERTIFICATIONS

MS Data Science (Coursework Completed, Thesis in Progress)	2024–Present
MSc Mathematics	2023
MSc Computer Science	2021
M.ED	2019
B.ED	2017
BSc Mathematics A, Mathematics B & Computer Science	2015

Certifications:

- **Artificial Intelligence Using Python** (Virtual University of Pakistan - 2026)
- **Python Essentials 1** (Cisco Networking Academy – 2026)
- **Creative Design** (E-Rozgaar - 2021)
- **Freelancing** (Virtual University of Pakistan - 2021)
- **WordPress** (Virtual University of Pakistan - 2021)

TECHNICAL AND ACADEMIC TOOLS

Python • C++ • Dart • Flutter • Machine Learning • Deep Learning • LLMs • RAG • Data Science • Pandas • NumPy • Scikit-learn • Statistics • Probability • Calculus • Programming • Algorithms • Data Structures
